

Ancillary Checklist

1. Available through Bio-Response Solutions:

- a. Therm-tec Cremains Processor
- b. Cremation Tags
- c. Mini Compartments

2. These items are included with your unit. Let us know if you need more!

- a. Gloves
- b. Goggles
- c. Cremains scoop
- d. Chemical scoop

3. Recommended from other Vendors

- a. Step for PET400
 - i. The step we recommend is usually available on Amazon for under \$400 total.
https://www.amazon.com/gp/product/B0027Y39IM/ref=oh_aui_detailpage_o00_s00?ie=UTF8&psc=1

- b. Hoist for the Pet400
 - i. Here is an inexpensive hoist that some of our customers use.
<https://www.harborfreight.com/880-lbs-electric-hoist-with-remote-control-62768.html>

- ii. The hoist can hang from a beam trolley like the one below. Two trolley units are actually better than one, because the electric hoist mounts in two places, making it much more stable. <https://www.harborfreight.com/1-ton-push-trolley-97392.html>

- iii. There are also higher quality ones available from Grainger and McMaster-Carr. These Harbor Freight pieces work well for our customers. Harbor Freight also sells the gantry crane. <https://www.harborfreight.com/1-ton-capacity-telescoping-gantry-crane-62510.html>

- iv. How It Works:
 - 1. The trolley will slide along an I-beam or gantry crane (a beam on its own frame).
 - 2. If it is at all possible, we highly recommend an I-beam, because the gantry crane is an obstacle you have to move around and it is cumbersome. There are ways to install an I-beam even if the room has a false ceiling.
