

Available Options: PET-100, PET-400, PET-500 Systems

Note: Prices are in US Dollars. Prices are subject to change; please request a formal quote.

1. Available Equipment Options

- a. Common Options
 - i. Most systems require pH reduction: CO2 \$2,000 or Citric \$2,500.
 - ii. Most systems are able to gravity drain, if not a discharge pump is required: \$1,500.
- b. Less Common Options:
 - i. TSS Filter: \$2,500
 - ii. Cycle Record Printer: \$800
 - iii. *Manual dry chemical is no additional charge to price of system as it doesn't involve any system components.*
 - iv. Manual metered liquid chemical addition: \$8,000 – does not automatically weigh the bodies.
 - v. Load cells and automatic liquid chemical injection: \$15,000.
 - vi. Machines include basic eWON for remote diagnostics, we require the units have internet connection (via Ethernet cable). If internet connection is an issue, there are wireless and mobile modules available (please inquire about costs and limitations).
 - vii. Other eWON module options are available, such as a unit that allows the machine to email/text your staff when an error occurs. This option is \$3000.
 - viii. Remote Viewing Access is an option that can be added to any machine at any time for an initial setup fee (\$80) and a monthly charge (\$300/yr).

Note: Other programming options are available; please let us know your needs.

2. Shipping

- a. Shipping is FOB Danville, Indiana. Bio-Response provides a custom built crate and rigging materials. We ship world-wide and can quote this cost for your location if you are outside of the continental United States. In the US this cost is typically \$1,500 to \$2,000 in the continental United States.
- b. You can also pick your equipment up from our location.

3. Receiving

- a. Machines are shipped in a custom made shipping crate.
- b. A fork truck is required to offload the crate from the delivery truck. This equipment can be rented for offloading the crate (skilled operator recommended), or a rigging company can be hired to fully handle the delivery and setting the unit in place. Fork truck rental is typically \$500 for a two day rental. Rigging companies typically charge \$900-1600 depending on services required.
- c. *Bio-Response will provide a Shipping & Receiving Guide upon order.*

4. Training

- a. On-site start up and training: \$3,000
- b. You may also train at a customer site for a negotiated rate.
