FULLY VALIDATED STERILIZATION PROCESS

HT-500 | Savage, MN

HT-500 | Escondido, CA

## HUMAN SYSTEMS

MODELS	HT-500, LT-500
CAPACITIES	0-500 LB
CHEMICALS	Manual (Dry) or Fully Automatic (Liquid)
TECHNOLOGY	Remote Monitoring, User Notifications, Historical Data Log, Performance Reports, Remote Tech Support, Remote Software Updates, Sophisticated AI Diagnostics

Simple — no boiler, no tanks, small footprint, basic utilities.  
Our systems can be placed in a residentially-zoned funeral home.  
Our patented design saves resources — we use less water, alkali, and energy.  
Our patented process provides an extra gentle method of caring for delicate cases.

# This is a partnership.

Our customers are innovators. Our people are innovators.
