

AQUAMATION®

Aquamation® is a gentle, water-based alternative to flame cremation.

A PROVEN PATH TO GROWTH

CONSUMERS VALUE SUSTAINABILITY

Families are looking for eco-friendly choices in every part of life — and aftercare is no different. Aquamation eliminates emissions and saves energy.

FAMILIES CHOOSE AQUAMATION

When given the choice, 80-95% of families choose Aquamation over flame cremation. This is where the market is going — be the provider that meets them there.

EASIER TO OPEN, EASIER TO GROW

No stacks, no emissions. Aquamation opens doors in communities where zoning or permitting makes flame cremation impossible.

PROVEN, RELIABLE BUSINESS MODEL

With 20+ years of experience and 600+ systems installed worldwide, Bio-Response is the trusted choice for businesses who want to grow with confidence.

THE BIO-RESPONSE DIFFERENCE

Patented Individual Compartments

Each pet is placed in its own individual compartment. Each family receives only their pet's remains.

Gentle for All Pets

From Great Danes to hamsters and betta fish, delicate remains are always protected.

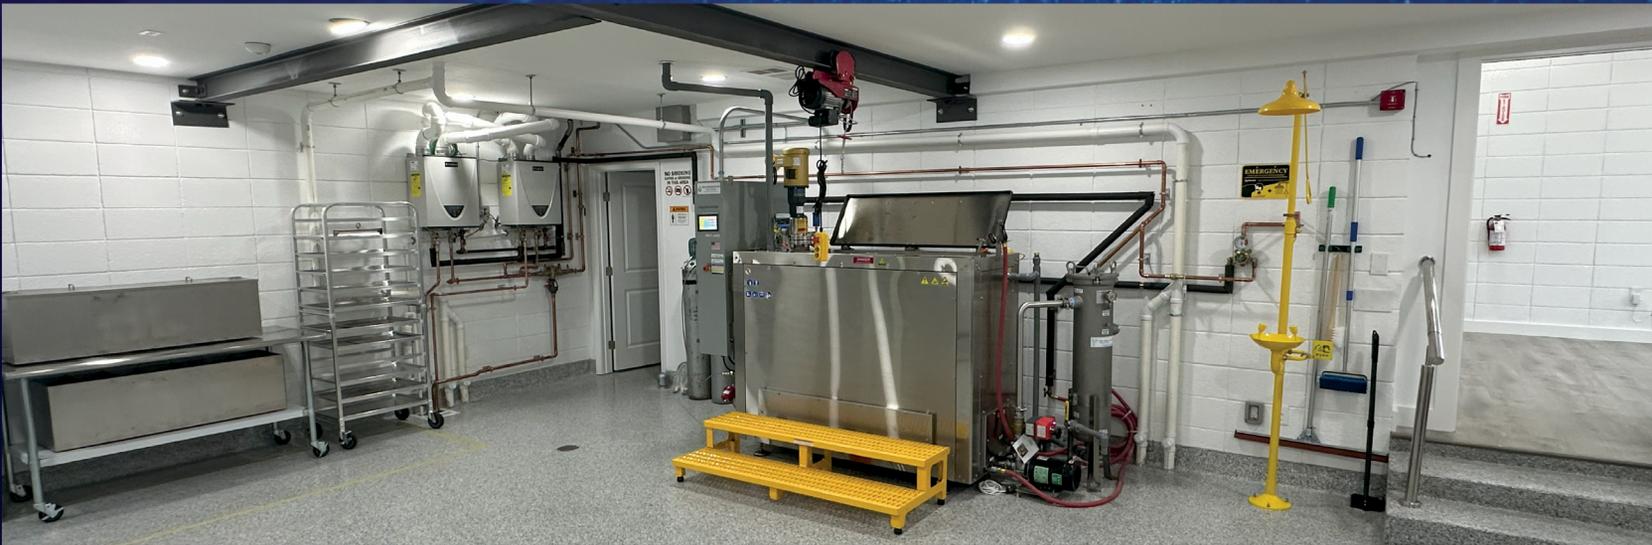

Scientifically Validated

Our equipment is biosafety tested and peer-reviewed: sterilizes pathogens, destroys euthanasia and chemo agents.

Built for Reliability

Easy to install, easy to use, easy to own and maintain.

WHEN IT COMES TO YOUR BUSINESS **EXPERIENCE MATTERS**

- ✓ 20+ Years of Healthy Growth — A strong company you can rely on.
